FINISHING ARTIST / RETOUCHER ART MACHINE A TRAILER PARK COMPANY

Bryan Allen

Creative Director at Art Machine

“ Juliana is an excellent retoucher and finisher. I highly recommend her.

Software and Technique. I am very impressed with Juliana's knowledge of photoshop, but more importantly with her tireless efforts to continue learning. She may be counted upon to stay on top of new techniques, shortcuts and software developments.

Aesthetics. Juliana has a very well educated and highly developed aesthetic sense.

Accountability. I believe it is the hallmark of an excellent finisher that she tries to understand the client's needs as well as the Art Director's intentions. You can count on Juliana to bring a critical eye to the work and make suggestions on how to improve it, but always to seek approval before making any changes. She is a pro.

System knowledge. Juliana has a very good working knowledge of the software and hardware systems she uses. This allows her to make the most of the creative resources at her disposal and to identify and remedy technical issues quickly and effectively.

Logic and organization. Juliana has a very thorough and logical understanding of file structure. This enables her as a finisher but also makes her valuable as a contributor to company systems and to the education of creative staff. She has much to offer any company looking to improve the quality and efficiency of its process and product. **less**

“ I hired Juliana to do finishing work for multiple projects at Warner Bros. She finished artwork for me on a Two and a Half Men affiliate campaign that was pristine. Here's a truncated excerpt of an email I sent to her after work on a DC Comics sell sheet / key art project, where the source material was less than desirable quality:

Sell Sheet #1 - Perfect!

Sell Sheet #2 - Perfect!

Sell Sheet #3 - This looks AMAZING!

Sell Sheet #4 - This looks fantastic.

Sell Sheet #5 - This is an amazing transformation - his face looks INCREDIBLE!

Overall, amazing job on this - thank you.

I think Juliana is a consummate professional. She has honed her skills into being one of the best and most detail-oriented finishers I have worked with in this industry, and I have worked with many of the top finishers in entertainment. I would choose Juliana to work on final art of any style. She has been flexible enough to work with me on budgets and tight time frames. Any agency or studio would benefit from her skill set and hard working attitude. **less**
